Massages

VIA JASNÁ

► Chocolate massage

It is excellent for smoothing and beautifying the skin, cellulite and flushing out toxic substances from the body.

► Face massage with mask

Classic massage techniques on the face contribute to the overall improvement of skin quality, relax the muscles on the face, prevent the formation of wrinkles.

► Relaxing aroma massage

It is a combination of the effects of massage with the healing effect of oils. Long strokes along the muscular parts relax the body and mind, strengthen immunity, improve blood flow and reduce muscle pain.

► Honey massage

Presents an excellent and very convenient way to detoxify the body. Eliminates drug, food and environmental toxicity.

► Reflex foot massage

Strengthens health and affects the disease's reflex changes. It uses the relationships between organs and reflex points on the soles of the feet.

► Head and neck massage

Relieves tension in the area of the thoracic spine, shoulders, neck and head. It relieves eye tension, supports the activity of the nervous system, relaxes the hair part, supports hair growth.

► Classical massage (back, legs)

It brings deep relaxation, eliminates fatigue, muscle cramps, restores the mobility of stiff muscles. It has a positive effect against stress and depression, relieves tension.

► Lava stone massage

Massage with black stones of volcanic origin, heated in a water bath. The heat of the stones eliminates muscle and joint pain, removes stress, stimulates blood circulation and the lymphatic system.

► Baby massage with chocolate oil

Uses touches from a classic massage adjusted and intensively adapted for the child's client.

► Rose hip body treatment

It helps the overall regeneration of the body, skin renewal, improves blood circulation.

► Cinnamon wrap

The wrap has a burning effect, regulates metabolism, reduces fat storage. Regenerates the skin.

► Detoxication wrap

Honey wrap, which helps to overall detoxify the body.

► Chocolate wrap

We use chocolate with 100% cacao extract. It contains vitamins A, E, F, H, which regenerate and protect the skin from water loss. It contains a high proportion of calcium and magnesium.
